Other Information:

Dear Doctor,

Patients sometimes require a specific mode of therapy, which is not available, or, they may have work, family commitments which make available appointment times unsuitable. They may also be social service, work disability, or legal issues, which we may not be able to address. Importantly, we need assurance that after our initial session and/or treatment, **you will still be available for follow-up care.**

**Thank you for your referral**
