Another Mental Health Collaborative Session The DSM-5® Meeting

November 15, 2013 at the Ontario Medical Association,
150 Bloor St. West, Suite 900, Toronto

The OMA Sections of GP-Psychotherapy, Psychiatry and Addictions Present: The Intelligent Clinician's Guide to the DSM-5®

Dr. Joel Paris - Key Note Speaker

Professor, Department of Psychiatry, McGill University
Editor-in-Chief, *Canadian Journal of Psychiatry*

Dr. Michael Paré - Chair of OMA Section on GP-Psychotherapy

Dr. Harry Zeit - Chair of Education, OMA Section on GP-Psychotherapy

The Intelligent Clinician's Guide to the DSM-5® explores all revisions to the latest version of the Diagnostic and Statistics Manual, and shows clinicians how they can best apply the strong points and shortcomings of psychiatry's most contentious resource. Written by a celebrated professor of psychiatry, this reader-friendly book uses evidence-based critiques and new research to point out where DSM-5 is right, where it is wrong, and where the jury's still out. Along the way, *The Intelligent Clinician's Guide to the DSM-5®* sifts through the many public controversies and clinical debates surrounding the drafting of the manual and shows how they inform a modern understanding of psychiatric illness, diagnosis and treatment.

This book is necessary reading for all mental health professionals as they grapple with the first major revision of the DSM to appear in over 30 years.

Objectives:

- To review the concepts behind the DSM system
- To review changes in DSM-5
- To examine implications for treatment

Registration details will follow.
